WHY DIGITAL CLOSEOUT?

Eastern Engineering's Digital Closeout organizes all final construction closeout documents in a single electronic catalog. Whether for maintenance, future improvements or litigation support, owners appreciate the ease and convenience of being able to search and refer to project information in digital form. If a print is needed, you can print full size drawings on your printer, or Eastern Engineering's production team is happy to help.

Customized for your project including contents, naming, and more, the closeout is delivered as a fully navigable and searchable PDF. Documents and drawings can be browsed by topic or searched.

simple. electronic. searchable.

Digital Closeout Typical Contents

Searchable electronic catalog of project information & documents

- Bid & As-Built drawings
- Submittals, Change Requests, Field Notes, Photos & Video
- Operations and Maintenance Manuals
- Project team contact information

DIGITAL CLOSEOUT AT A GLANCE

Eastern Engineering's Digital Closeout includes:

- Scanning key project documents
- Indexing drawings
- Organizing all construction information into a digital catalog
- Producing final navigable and searchable PDF
- Optionally producing printed closeout binders

ACCELERATE CLOSEOUT

When eCommunication and Digital Closeout are combined, you get the advantages of a full digital workflow for your construction drawings and project information. Because information in eCommunication is captured digitally when created or approved, your final project information can be quickly compiled into the Digital Closeout, speeding delivery of final closeout documents.
